

**Investment in local resident pays off.**

The Town Council's Human Resources Committee was extremely pleased to appoint Liam Johnson into the position of Administration Officer at their meeting in September.

Liam came to the Town Council in May 2015 through the Knowsley Apprentice Scheme. Since joining the Council Liam has successfully developed into his post and has also completed a NVQ 2 in Business Administration. Liam's performance over the last eighteen months and his academic achievement have made the decision to make his employment permanent an easy one for the Committee, the fact that Liam is local lad provides added pleasure to the decision as it allows the Town Council to recruit from within the Town.
