

KNOWSLEYFUTURES

When?

Tuesday 2nd March, 6–8 pm on Zoom.

What?

The purpose of this workshop is to bring together the discussions and insights from previous Knowsley Community Conversations Events, in order to build a collective vision for the future of Knowsley. You will be working together in small groups to generate ideas about how this vision can be achieved. Like previous sessions, we hope the evening will be informal, fun and sociable.

Who?

This session will involve residents, community leaders, the Youth Cabinet and representatives from Knowsley Council. Bringing together your various roles within Knowsley's community will provide valuable insights into how different people and groups have responded to the pandemic.

Why?

Firstly, your ideas and conversations will be integrated into the Council's Knowsley 2030 strategy and local rebuilding efforts post-Covid. Secondly, we will feedback the insights to our funder – The National Lottery Community Fund – who want to use the KnowsleyFutures project to help shape their future funding strategy and priorities. Finally, we will be working with local creative people who will help to share Knowsley's collective story with the wider community through various artistic expressions.
